Bachelor of Science in Computer Science

May 2019  
Cumulative GPA: 3.4 | Major GPA: 3.5

## Skills

**Programming Languages:** Scala, R, C++, C#, and Python

**Operating Systems:** Windows 10, OS X, Linux

**Environments:** Eclipse, Microsoft Visual Studios 2015

**Database:** MySQL, Slick

**FrameWorks:** .NET, Play, React

**Applications:** Adobe Photoshop, Microsoft Office.

**Web:** HTML, CSS, JavaScript, jQuery, Twirl

## Project Experience

**Interior Design Web App** | Katie Lillback, Trinity University

April 2019

- Devised a Web app for Katie Lillback's interior design business with a team of 4.
- Built using the following technologies: Scala Play, Slick, JQuery, and Twirl

**React BLE Smart Bulb Controller** | Personal Project

May 2019

- Built a simple React.js web application for controlling a Bluetooth low energy (BLE) smart light.
- The application took advantage of Chrome's Web Bluetooth functionality to communicate with the device, and allows color control via a color picker once connected.

## Leadership

**ISI (Intercollegiate Studies Institute) Honors**

Aug. 2017-Dec. 2018

- Engaged in conferences designed to promote leadership oriented values

## Work Experience

**Intern** | WellMed Medical Management/Optum

June 2018-Aug. 2018

- Served as IT Technical Analyst managing software, hardware, and networking tasks.
- Supported customers with technical issues and provided desktop services to over 4000 users.
